TIPS Connectivity Dossier

2. Connectivity - Technical Requirements (Version 1.0 Final)

- Annex 1 - **Message Exchange Processing v1.0**

The documents provides further detailed information about Messaging Rules that are relevant for the NSP

TIPS Connectivity Dossier

2. Connectivity - Technical Requirements (Version 1.0 Final)

- **Annex 2 - Compliance Check Procedure**

  It describes the two step procedure to verify the compliance of the solution proposed by the sponsored NSP with all the requirements. The first step will be a qualitative assessment based on a desk review; if this first assessment is passed successful, the NSP will be invited to install the infrastructure necessary to execute all the listed test cases to be executed by the NSP and verified by TIPS Operator.

3. Hosting Terms and Conditions

- It rules the relationship between the NSPs and the TIPS Operator for the installation and maintenance of the NSPs Infrastructure at the TIPS Sites.

- The document is currently under review by the lawyers.
